Gentlemen:

This is to inform you that the reclamation on mining application No. ACT-031-002 (Koosharem) has been completed and agreed Satisfactory by the Forest Service, the owner of the property, Don W. Fullmer, and Interstate Brick, the leasor of said property.

This property has not been depleted of its clay resources and because of this the clay pit was not contaminated with overburden.

I am enclosing herewith copies of the Forest Service, Fullmer and Interstate Brick agreements concerning this property.

I trust this will meet your approval.

Respectfully submitted,

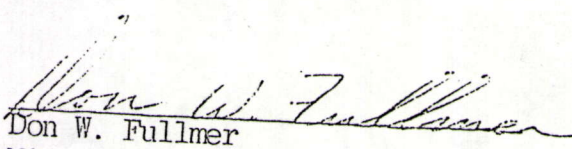

A handwritten signature in dark ink, reading "Robert L. Steele".

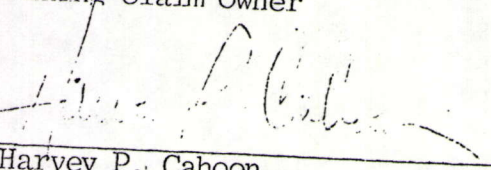

Robert L. Steele,
Representative
Interstate Brick

Nephi, Utah

September 8, 1978

The following agreement has been reached with regard to reclamation of the Box Creek Clay Mine:

1. Interstate Brick will be permitted to mine and ship any reasonable quantity of clay from the mine, prior to reclamation, on the same terms as provided in their prior lease.
2. Reclamation shall be carried out in a manner which will preserve and not contaminate the mineral resources of the mine, as follows:
 - (a) Waste dumps and peripheral areas of the mine to be rounded and sloped.
 - (b) Mine walls to be sloped in such a manner that only clean ore is pushed down the slopes into the pit.
 - (c) Some selected vertical walls will remain in place to display the mineral resource.
 - (d) Piles of materials within the mine to be rounded and smoothed in a manner which will not co-mingle or contaminate the various grades of clay.
 - (e) Entire area of operations to be seeded.
3. Interstate Brick will submit a reclamation plan to the Forest Service incorporating the above agreements.
4. It is agreed that completion of the foregoing work will accomplish the intent of the reclamation law and that Interstate Brick will be released from their reclamation bond upon satisfactory completion of the stated work. It is further agreed that the claim owners or future operators of the mine shall not be responsible for additional reclamation except as related to their own operations.

U.S. FOREST SERVICE
Richfield, Utah 84701

This letter requests that our 1977 operating plan be amended and extended for 1978. The reclamation section will be amended to include the following:

- A. All waste dumps to be rounded to natural contours.
- B. Mine walls and floor to be left clean.
- C. South wall of pit to be left vertical.
- D. Reseeding all disturbed surfaces.

Also, the agreement between Don Fullmer and Interstate Brick Company is a part of the reclamation plan. This agreement is attached.

Robert Steele
Interstate Brick Company

LETTER OF INTENTION

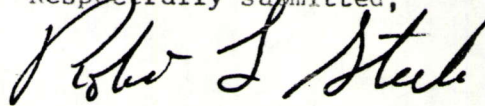

Daryl Hentze
Forest Service Mineral Specialist
Forest Service Building
Richfield, Utah

Mining and reclamation will begin on the Fullmer property in Sections 2 and 11, Township 27 South, Range 2 West, Salt Lake Meridian on September 11, 1978.

As per our agreement this letter is to advise you of this and to request the right to grade the road from the pit to Greenwich approximately seven miles of forest road. In grading this road we will not encroach on any undisturbed ground and will hold disturbance to a bear minimum.

Also as per our agreement we also request Forest Service supervision on this project.

Respectfully submitted,

Robert L. Steele
Representative
Interstate Brick
